

This listing of claims replaces all prior versions, and listings, of claims in this application.

Listing of Claims:

Claims 1-9 cancelled.

10. (New) An assembly unit for a pod housing, a so called seating, the seating comprising a lower portion and an upper portion, which are connected to each other by means of side outer walls, to form a box like assembly unit, a base fixedly attached within said box like assembly unit for the installation of said pod housing, wherein a cooling system comprising at least a fan is mounted within said box like assembly unit, within the space delimited by said lower portion and an upper portion and said outer walls.

11. (New) An assembly unit according to claim 10, characterized in that at least one cooling unit is installed within said space.

12. (New) An assembly unit according to claim 10, characterized in that a drum is positioned inside the seating, which forms an inner delimitation of said space, which drum is arranged with an inlet opening (23) and an outlet opening (22), respectively, for cooling air.

13. (New) An assembly unit according to claim 12, characterized in that said drum is positioned coaxially to said base.

Serial No.: CON. of USSN 10/258,121
Art Unit: Not yet Assigned
Inventor: STIG LÖNNGREN

Attorney's Docket No.:HPX0075-CON.
